## Average \$18 Suit is Manufactured for \$3.

Washington, Jan. 27.—That the average woolen \$12 to \$18 suit of clothes costs the factory \$3 and is sold wholesale for from \$8 to \$10 was admitted to the Ways and Means Committee today. Joseph D. Holmes, a New York woolen merchant, presented the figures in asking for a retention of high wool duties.

"Clothing would be no cheaper if the duty on cloth were removed," he asserted.

Eben S. Stevens, a Webster, Mass., wool manufacturer, took the same figures to illustrate his point that "it looked as though somebody had an iron cutch on the wool business."

John P. Wood of Philadelphia, for the National Association of Wool Manufacturers, opposed any change in present duties.

Frank P. Bennett of the American Wool and Cotton Reporter wanted entire removal of the wool duty.
